Job Description

A leading e-commerce platform based in Austin is seeking a **Python Developer** for a fully remote position. You'll be responsible for developing scalable backend systems and integrating third-party APIs using Python, Flask, and FastAPI. You will collaborate with cross-functional teams to build features that enhance the platform's performance and scalability.

This is a perfect opportunity for an experienced Python developer who enjoys working with modern technologies and solving complex problems in a collaborative, fully remote environment.

Required Skills & Experience:

- 2-3 years of experience in Python development
- Proficiency in Flask, FastAPI, or Django frameworks
- Strong understanding of RESTful APIs and microservices architecture
- Experience with cloud platforms (AWS or GCP) and containerization (Docker)

Desired Skills & Experience:

- Knowledge of SQL and NoSQL databases (PostgreSQL, MongoDB)
- Experience with message queues (RabbitMQ, Kafka)
- Familiarity with CI/CD pipelines and DevOps practices
- Excellent communication and team collaboration skills

Daily Responsibilities:

- Design and develop backend systems and services using Python and Flask
- Integrate third-party APIs and build RESTful APIs for the platform
- Collaborate with DevOps engineers to ensure smooth deployment
- Participate in Agile ceremonies and contribute to sprint planning
- Debug and optimize backend services for performance and scalability

Salary: \$140,000 – \$160,000

The Offer: Full-time, Bonus eligible

You will receive the following benefits:

- Medical, Dental, Vision Insurance
- PTO, 401(k) with company match
- Paid holidays and flexible work schedules
- Remote work flexibility and professional growth opportunities

Note: Candidates must be authorized to work in the US without sponsorship.
