## Job Description

---

An opportunity to work remotely with one of the leading e-commerce companies based in Seattle! They are seeking a **Mid-Level Back End Developer** to help expand their platform. You'll be working on building robust back-end solutions using Node.js, Go, and PostgreSQL, while ensuring high performance and scalability. This is an excellent chance to work in a fully remote environment, collaborating with teams across the U.S. while having the flexibility to manage your time efficiently.

You'll also be involved in building and integrating APIs, managing databases, and working closely with DevOps engineers to maintain smooth CI/CD pipelines.

**Required Skills & Experience:**

- 3+ years of experience in back-end development
- Strong proficiency in Node.js, Go, and database technologies (PostgreSQL, MongoDB)
- Experience with RESTful and GraphQL APIs
- Familiarity with Docker, Kubernetes, and AWS

**Desired Skills & Experience:**

- Experience with microservices architecture
- Knowledge of API security and best practices
- Ability to troubleshoot and optimize database performance
- Strong collaboration and communication skills

**Daily Responsibilities:**

- Develop backend services using Node.js and Go
- Build and maintain APIs for front-end and mobile applications
- Work with DevOps teams to optimize deployment and infrastructure processes
- Monitor performance and identify areas for improvement in the back-end systems
- Collaborate with the front-end team to ensure seamless integration of services

**The Offer:** Full-time, Bonus eligible

**Salary:** \$130,000 – \$150,000

**You will receive the following benefits:**

- Medical, Dental, Vision Insurance
- 401(k) with company match
- PTO and paid holidays
- Remote work flexibility

**Note:** Candidates must be authorized to work in the US without sponsorship.
